

MURAL PRICING & SPECIFICATIONS

Wings Over Webster is an initiative dedicated to enriching the communities of Webster Parish with interactive, affordable public art. Developed by local artists, our winged murals transform public spaces, encourages people to explore their community, and share their experiences on social media.

CITY APPROVAL & BUILDING PERMIT

Check with your city for pricing.

The purchase of a building permit is required prior to beginning any work for your mural. Additionally, if the mural is to be installed in a Historic Downtown/ Mainstreet area, artwork will need to be approved by the appropriate committee prior to starting. Failure to get approval or permit can result in a fine that you will be responsible for.

INSURANCE

Check with your insurance company for pricing.

It is recommended that liability insurance is procured during the production process to protect the building owner from issues related to injuries/damage sustained during the process.

DESIGN PROCESS

The foundation of each mural is one of three designs, inspired by iconic winged murals and Louisiana's native wildlife. You will choose from 1 of 3 options, keeping in mind the area that will be painted. A site visit will be necessary to determine which set of wings will work best in the space.

WoW, 2025

Designs will be simple to keep mural expenses reasonable for the client. Intricate details and designs outside of these options can be discussed but pricing will increase/reflect a more detailed design.

Once you choose your wings, you will work with our design team to create a one of kind design for your mural. You will give your input for the design and can make up to 2 changes without any additional charges.
